Rate of change

# Q&A

# Create teams of 4-6

# Exponential thinking exercise

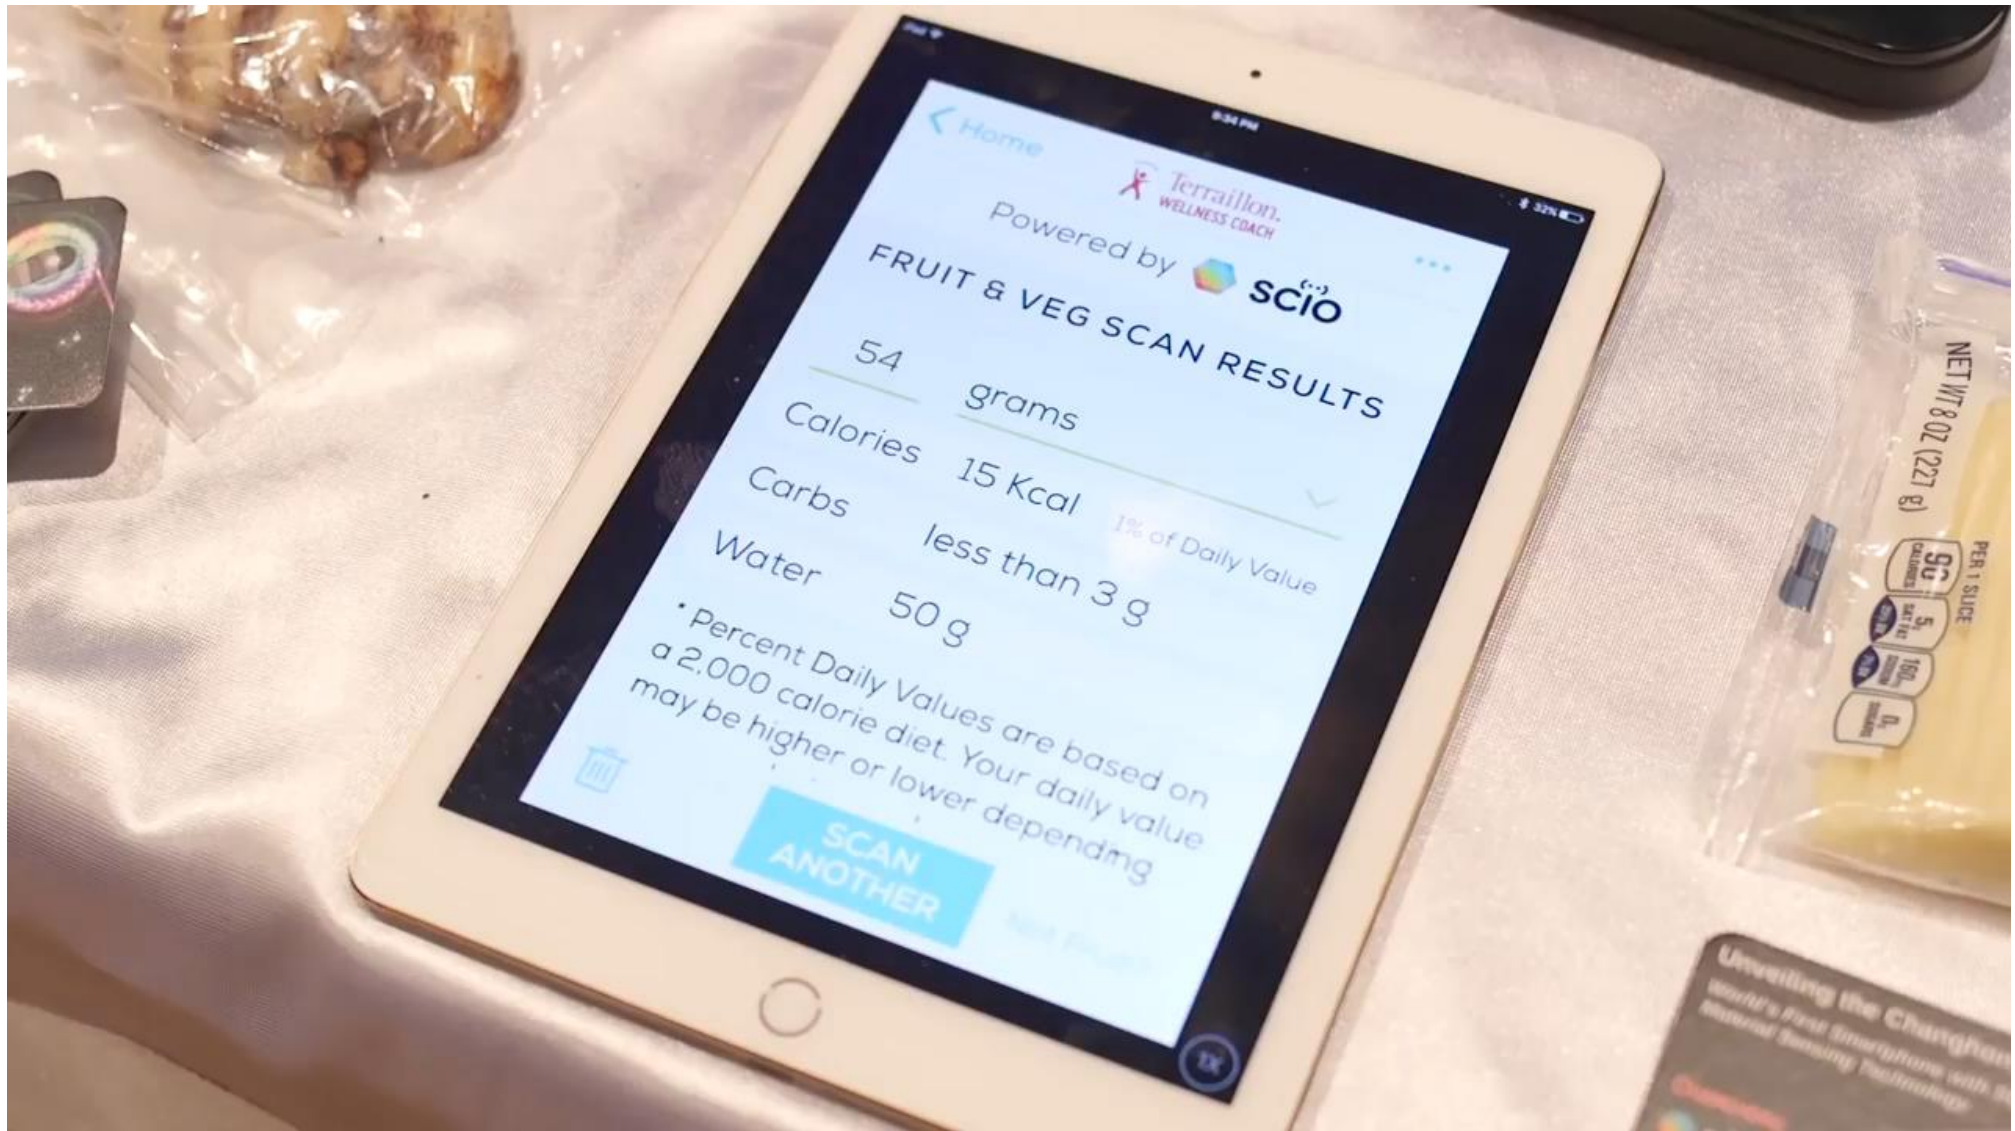

# Example organization

- **Industry:** Food & Beverage
- **Founded:** 1962
- **Business Model:** Retail stores
- **Locations:** 6,200 stores in the world
- **Number of Employees:** 2,200,000
- **Revenue:** \$485.651B USD
- **Profit:** \$26.6B USD

# SCIO

# Exercise: Linear vs. Exponential thinking

1. **Pick 3 technologies or startups** that could significantly impact your organization
2. Think both about the **opportunities and threats** that represent these technologies, and on what time horizon (20 minutes)
3. **Share** your results! (1 minutes / team)

Exponential technology or startup	Opportunity	Threat	Timing
1.			
2.			
3.			

# The ExO formula

$$\left[ \begin{array}{c} \text{ExO} \\ = \\ \text{MTP} + \text{SCALE} + \text{IDEAS} \end{array} \right]$$

# ExO Canvas explained

OUTSIDE OF THE ORGANIZATION

How to reach ABUNDANCE?

INSIDE OF THE ORGANIZATION

How to manage ABUNDANCE?

ExO Canvas

MASSIVE TRANSFORMATIVE PURPOSE (MTP)			
INFORMATION	STAFF ON DEMAND	INTERFACES	IMPLEMENTATION
	COMMUNITY	DASHBOARDS	
	ALGORITHMS	EXPERIMENTS	
	LEVERAGED ASSETS	AUTONOMY	
	ENGAGEMENT	SOCIAL	

ABUNDANCE

ExO

# Massive Transformative Purpose (MTP)

The higher, aspirational purpose of the organization.

The MTP serves as a guiding principle when key decisions need to be made.

## an MTP is:

- Emotional: reaches hearts and minds
- Credible: stakeholders need to be confident in their daily work
- Simple: clear and easy to understand
- Guide people: from the inside and outside
- Guide scale: when needed
- About passion

## An MTP is NOT:

- Just about the organization: not a vision statement
- Only about the „How To”: not a mission statement
- A marketing slogan for customers
- A sentence for us („we”): not about business
- The value proposition: not the literal promise

# Massive Transformative Purpose (MTP)

*“If the dreams of your company don’t scare you, they are too small.” – Richard Branson*

# MTP examples

“Organize the World’s Information.”

**GOOGLE**

“Make the world healthier.”

**PHILIPS**

“Create a better everyday life for people.”

**IKEA**

“Changing business for good.”

**VIRGIN GROUP**

“Ideas worth spreading.”

**TED**

# The ExO formula

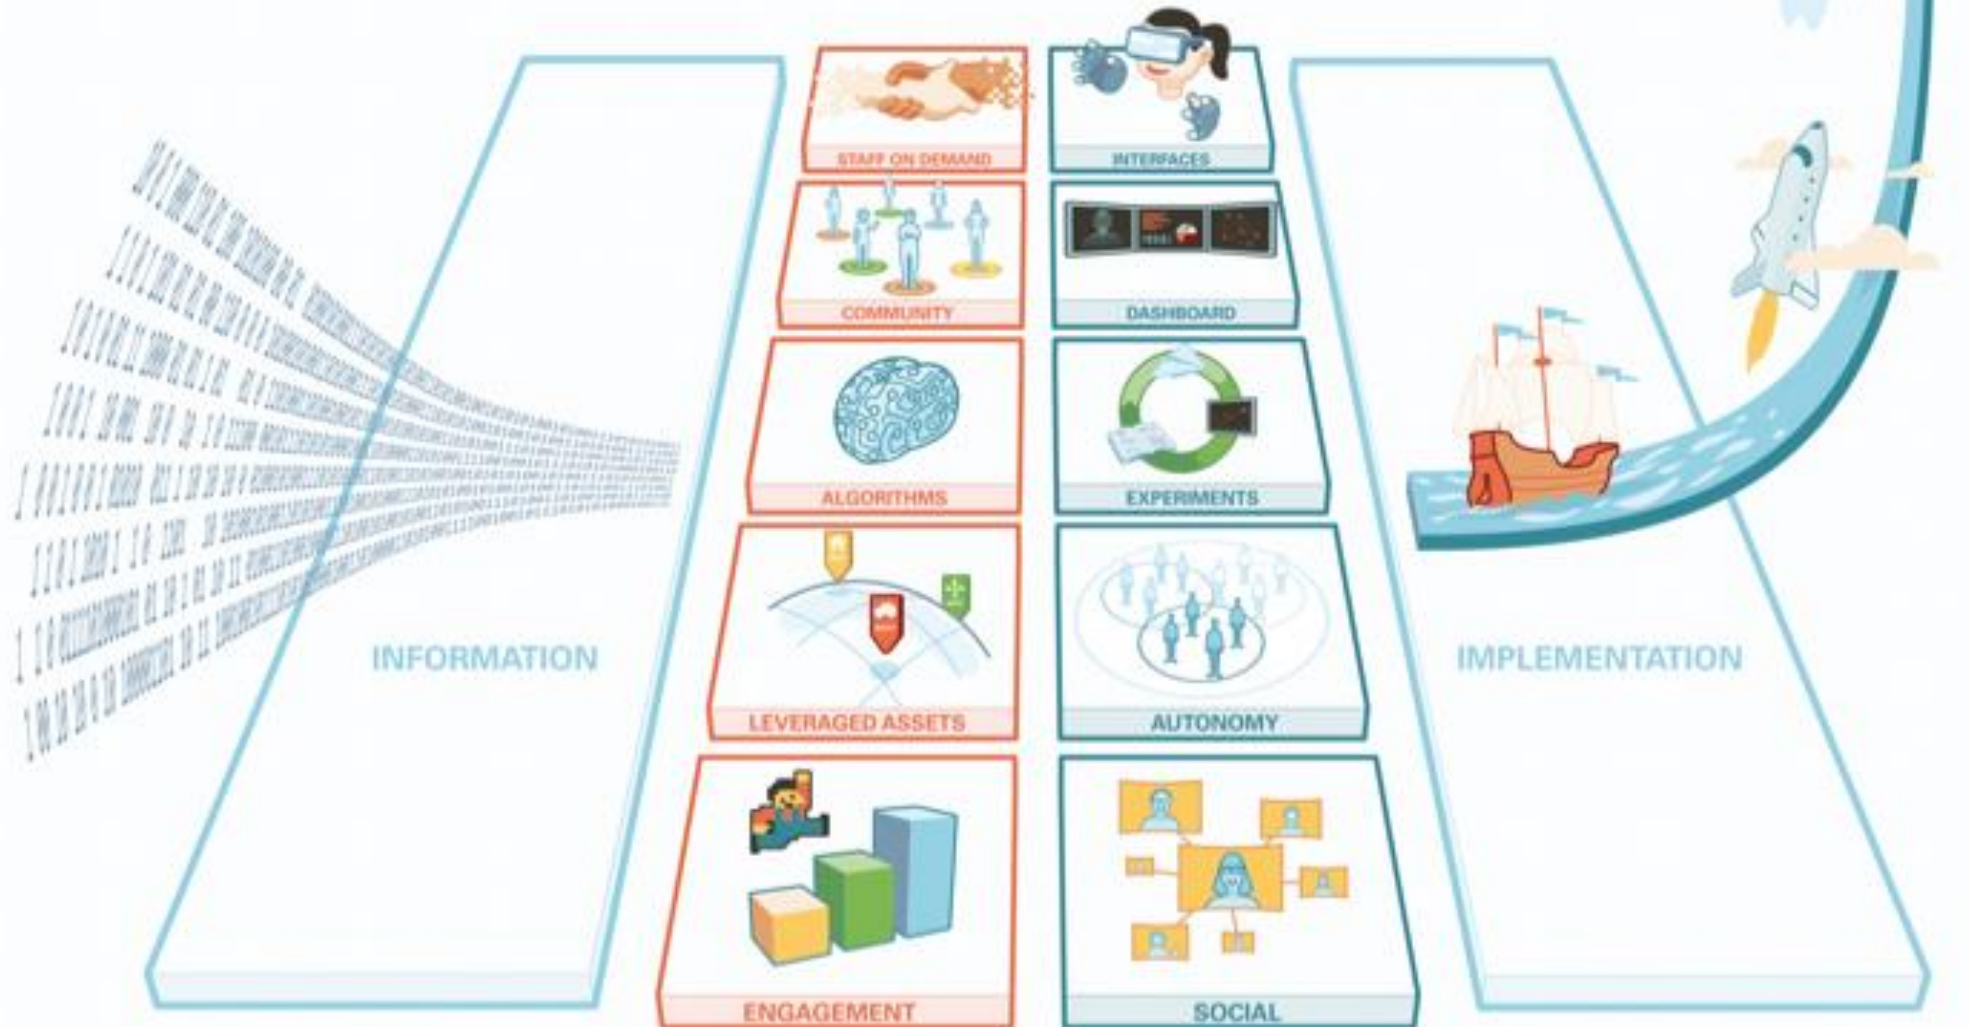

$$\left[ \begin{array}{c} \text{ExO} \\ = \\ \text{MTP} + \text{SCALE} + \text{IDEAS} \end{array} \right]$$

# ExO Canvas

# MTP

## Staff on Demand

Rather than 'owning' employees, ExOs leverage external people for simple to complex work – even for mission critical processes

## Staff on Demand

## Community & Crowd

Communities are groups of people passionate about a cause and devoted to collaborate on solving the grand challenges surrounding that cause.  
ExOs are leveraging their community or the general public to scale.

小米  
xiaomi.com

# Algorithms

As the world turns into data and information, ExOs are leveraging Algorithms – including Machine Learning and Deep Learning – to get new insights about their customers and products. Self learning software recognizing patterns in text, images, videos, languages etc.

U B E R

NETFLIX

# Algorithms

## Leveraged Assets

Rather than trying to own assets, ExOs access, rent or share assets to stay nimble – outsourcing even mission critical assets. Leveraged assets are comprised of Cloud computing, Hackerspaces and assets from customers as input for business.

# Leveraged Assets

## Engagement

Engagement is comprised of digital reputation systems, games and incentive prizes, and provides the opportunity for virtuous, positive feedback loops, which in turn allows for faster growth due to more innovative ideas and customer and community loyalty.

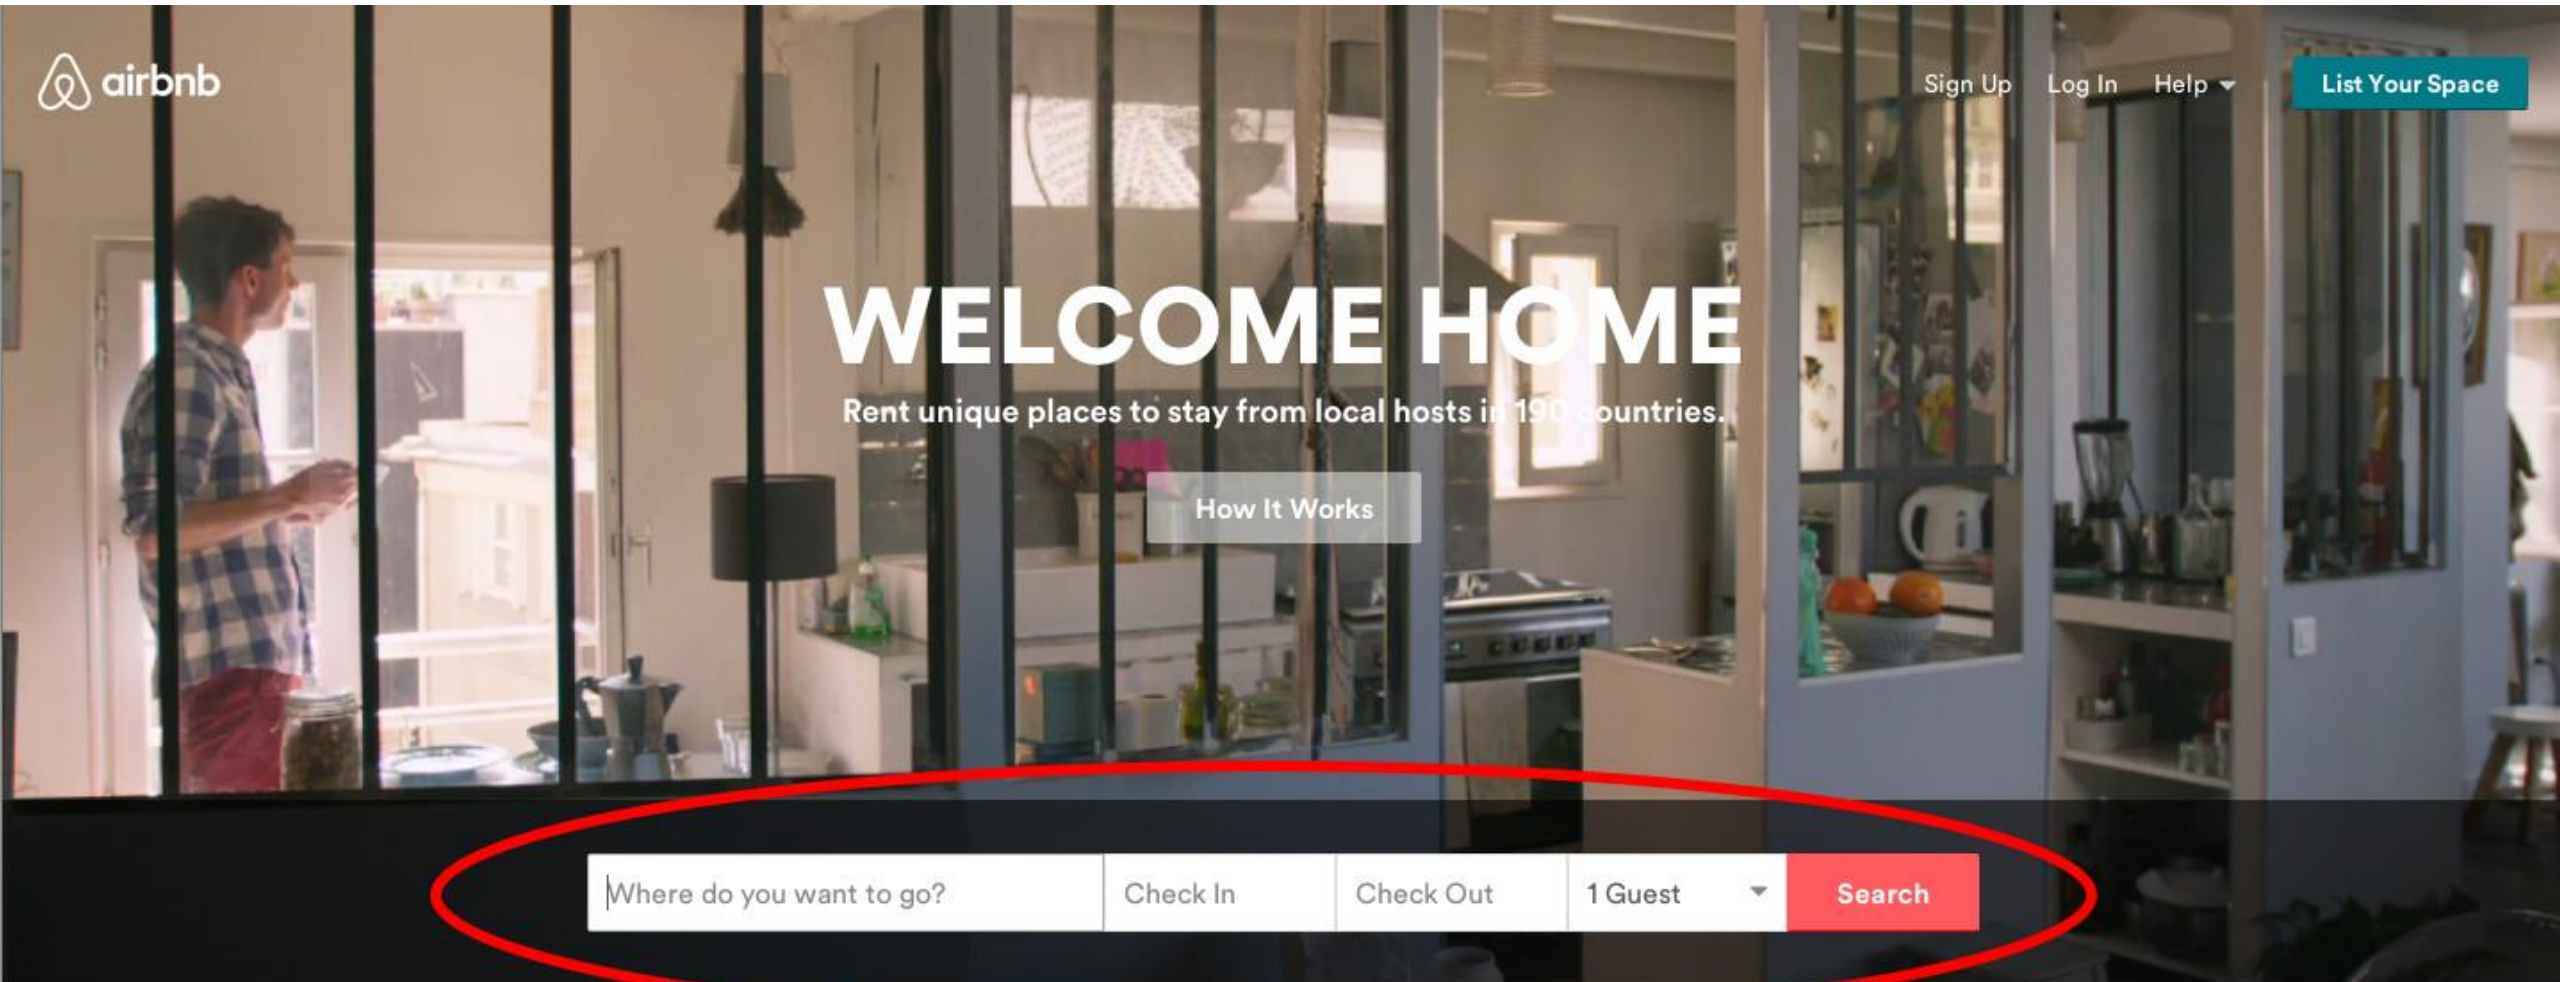

# Interfaces

Matching and filtering processes that allows an organization to select, filter and manage the outputs of all external attributes of ExOs (SCALE) as inputs into the internal organization in an effective, targeted and seamless manner.

# Interfaces

## Dashboards

Matching and filtering processes that allows an organization to select, filter and manage the outputs of all external attributes of ExOs (SCALE) as inputs into the internal organization in an effective, targeted and seamless manner.

## Experimentation

Matching and filtering processes that allows an organization to select, filter and manage the outputs of all external attributes of ExOs (SCALE) as inputs into the internal organization in an effective, targeted and seamless manner.

# Experimentation

Matching and filtering processes that allows an organization to select, filter and manage the outputs of all external attributes of ExOs (SCALE) as inputs into the internal organization in an effective, targeted and seamless manner.

## Autonomy

ExOs have a flat organization, allowing self-organizing, multidisciplinary teams and / or individual employees to operate with decentralized authority.

## Social

ExOs leverage collaborative tools to manage real time, zero latency conversations. When implemented these tools create transparency and connectedness and lower an organization's information latency.

# The ExO attributes

# Global impact – stock market effect

In a partnership with Hult School of Business, we tracked and scored the Fortune 100, from 2014 to 2016 on how exponential the organization, and paired that against their returns.

## Top 10

Fortune 100 Company	ExQ
Google	72.9
Amazon	66.2
Apple	62.6
International Business Machines (IBM)	61.0
Verizon Communications	58.8
General Electric	56.6
Microsoft	55.9
Cisco Systems, Inc.	55.8
The Walt Disney Company	54.8
Oracle Corporation	54.0

**+26.7%**

**S&P +9.9%**

## Bottom 10

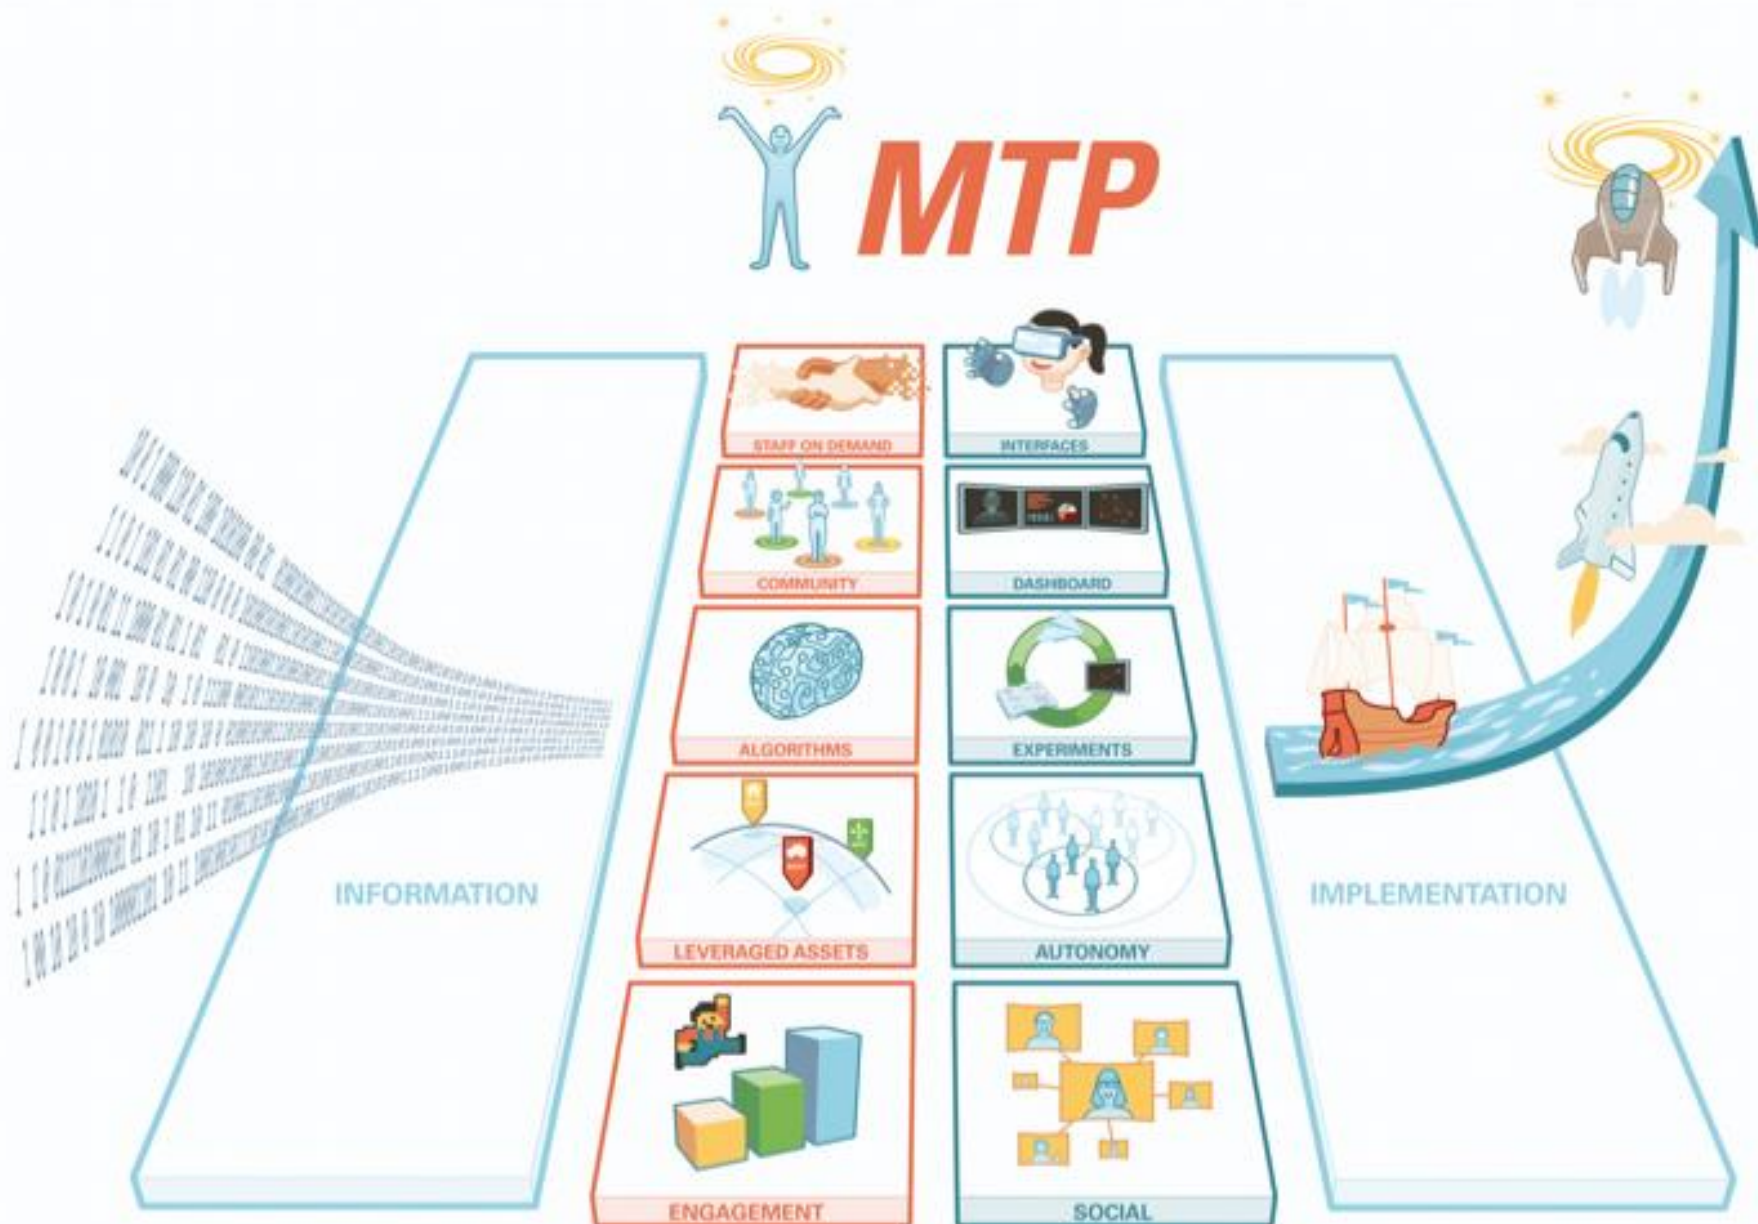

Fortune 100 Company	ExQ
Costco Wholesale	32.0
Phillip Morris International Inc.	31.6
Hess Corporation	31.3
HCA Holdings, Inc.	31.0
Phillips 66	30.7
Tesoro Corporation	30.0
Valero Energy	29.8
Plains GP Holdings, L.P.	27.5
Energy Transfer Equity, L.P.	26.5
Enterprise Products Partners L.P.	23.0

**-1.7%**

\*ExQ is an automated scoring algorithm based on ExO attributes.
